

YAHOO Instructions

How to add Member's Club GN (membership@e.genevanationalresort.com) emails to your safe sender list and have emails appear in your Primary folder.

- 1) Open your SPAM folder
- 2) Select Message
- 3) Click "Restore to Inbox"

Ensure that emails from specific addresses reach your Inbox, and not your "junk" or "spam" folder, by adding them to a safe senders list, which is also called "whitelisting".

In Yahoo Mail, your Contacts list is your whitelist. To add the From Address to your Yahoo Contacts:

1. Open your Yahoo mailbox.
2. Click the address book icon in the upper right corner. When you roll your mouse over it, it will say Contacts.
3. Click "Add a new contact".
4. Fill in the fields of your Contact.
5. Click Save.
